October 5, 2020

Dear Parent,

During the week of August 24, 2020, your child took a MAP® Growth™ test from NWEA® on a computer. MAP Growth scores help teachers check student performance by measuring achievement and growth. Teachers use results to tailor classroom lessons and set goals for students.

MAP Growth tests are unique, and it adapts to your child's responses to measure your child's skill level. If your child answers a question correctly, the next question is more challenging. If they answer incorrectly, the next one is easier. These results will provide a more complete picture of what your child knows and is ready to learn—whether it is on, above, or below their grade level.

Since MAP Growth tests provide immediate and accurate information about your child's learning, it's easy for teachers to identify students with similar scores that are generally ready for instruction in similar skills and topics, and then plan instruction accordingly.

MAP Growth reports also provide typical growth data for students who are in the same grade, subject and have the same starting performance level. Each school year, students in grades Kindergarten – 12<sup>th</sup> grade will take the tests in August, November, and March. After the November and March testing period, you will receive a Family Report showing a summary of how your child is performing academically.

We are truly excited to focus on your child's individual growth and achievement. For more information about MAP Growth, visit [NWEA.org/familytoolkit](https://www.nwea.org/familytoolkit).

Sincerely,

Michelle Helie

Chief Academic Officer
